Date: 7th August, 2006.

My INDIA has expanded its strength in to various parts of the country this summer. The members of My INDIA have put up praise worthy effort during these holidays to propagate the concept of developed India and establish My INDIA in different places. New chapters were started in Hyderabad, Kakinada and Vikarabad while the Vizianagaram chapter celebrated its first anniversary during the vacation. The Bangalore chapter is in the planning stage and Alumni and the PS students there are taking active part in the promotion of My INDIA there.

Hyderabad Chapter:

The Hyderabad chapter previously consisted of a few members from PIRM Engineering college who used to take up some developmental activities in and around. This time the main focus was on spreading the brand name of My INDIA in different engineering colleges and initiating relevant projects. With the support of the local members, we have given several presentations for propagation The presentation at JBIET was a grand success which attracted more than thirty students. They showed immense interest in starting My INDIA in their college. The Principal and faculty have been of great support through out. With this start up, we are planning to extend the chapter in 3-4 engineering colleges situated near JBIT. We consulted the college heads and are proceeding in this respect.

Kakinada chapter:

The members of My INDIA gave a presentation in Kakinada Inst. Of Engineering Technology. This college is already active in social service and has taken up good number of welfare activities in the college. My INDIA is proud to associate with this institute and take up developmental projects. There was a press meet arranged by the management during the presentation. The students were captivated by the wonderful seminar and they extended their full support in every way.

Vizianagaram Chapter:

The members of Vizianagaram chapter celebrated their first anniversary. As a part of it they conducted a quiz to the children of 6th to 10th classes. It attracted many students out of which 11 teams were selected with 3 in each. Winners were awarded books of Swami Vivekananda

Another activity taken up was distribution of fruits to patients in the Govt. General Hospital in Vizianagaram. Pomegranates were given to 60 patients, including ladies, children and leprosy patients. All the

members were deeply appreciated by the people for the service motive and social outlook. News articles also appeared in the local news papers with the photo clippings.

In no time we were able to gather such a lot of like minded people to work for the development of our dear nation. We hope My INDIA continues this trend of opening new chapters and involves more and more people in this movement.

THIS IS JUST THE BEGINNING...there is still a long way to tread.
