TO WHOM SO EVER CONCERN

This is to inform that Mr. Mote Saiju with age of 58 years was admitted in KIMS-SUNSHINE hospital with complaints of fever with yellowish discoloration of skin, eyes, yellow coloured urine, shortness of breath, loss of appetite. After investigations, patient was diagnosed as CLD with liver abscess - Amoebic, Chronic HCV infection, Acute Kidney Injury. Medical gastro consultation was taken, advised liver abscess pigtail drainage. Patient needs hospitalization for IV antibiotics, hepatoprotective drugs, pigtail drainage procedure and some other investigations for better understanding of patient condition.
