## Patient Information and Therapy Plan

Jogu Shreyan Goutham, aged 2 years and 8 months, has been diagnosed with speech delay and developmental delay due to Autism Spectrum Disorder (ASD). Shreyan is also experiencing behavioural issues and sensory problems. To provide him with the best possible care and support, we recommend specialized therapies including speech therapy, occupational therapy, and behavioural therapy, which are essential for his development and well-being as per the recommendations of medical professionals.

Shreyan requires intensive therapy for one and a half to two years to improve his speech and language development. We assure you that we are here to support you every step of the way. If you have any concerns regarding the therapy sessions, please feel free to reach out to us.

Our primary responsibility is to ensure that Shreyan Goutham receives the care and support he needs to thrive and lead a fulfilling life, together we can make a difference in his journey towards better communication, independence and overall well-being.

### Financial Information

It is important to discuss the financial aspects of Shreyan Goutham therapy sessions. The cost of each therapy is ₹15,000 per month. The breakdown of the costs for the three therapies is as follows:

S NO	Therapy Name	Cost per month
01	Behavioural therapy	15000/-
02	Occupational therapy	15000/-
03	Speech therapy	15000/-
	<b>Total per month</b>	<b>45000/-</b>

The total amount needed for the therapies over a duration of one and a half years (18 months) is ₹8,10,000.

Thank you for your understanding and trust. We deeply appreciate your confidence in us and look forward to working together to support Shreyan Goutham on his therapy journey.
